

Michael (Mike) Boremi

Infrastructure / Security / Development

Web3 / Blockchain / Advisor

Decades of technical experience in a wide variety of roles and industries. My skill sets bring value to any team that seeks an out of the box problem solver who is comfortable leading and humble enough to follow. My rock solid values are trusted by every team I work with and the billion dollar blockchain projects I am entrusted to protect for nearly a decade. My generalist insights will provide invaluable knowledge to any project seeking a true professional builder.
